## SUMMARY

---

A passionate front-end web developer with hands-on experience in creating responsive and user-friendly websites. Proficient in HTML, CSS, JavaScript, Bootstrap, and familiar with frameworks like Django and PHP for back-end development. Skilled in crafting engaging digital experiences and optimizing web solutions to meet user needs.

## SKILLS

---

### Python Programming Language

Learned through offline course. In this I was mostly focused on learning basics of python and UI operations.

Varanasi, India  
July.2024 – Dec.2024

- Having knowledge of data structures, File Handling, Functional Programming, Object Oriented Programming, Django framework for web development. etc.

### Web-Development

Learned through offline course. In this I developed Static websites as well as Dynamic websites using php and python as a backend language.

Varanasi, India  
March.2024-June.2024

- Have the knowledge in front-end technologies like **HTML**, **CSS**, **JavaScript**, and **Bootstrap** for designing responsive and visually appealing user interfaces.
- In back-end technologies I have used Python and PHP. And I have also used **SQL database** in the project.

### C Programming Language

Learned through online classes and self-learning.

Varanasi, India  
March.2024-May.2024

- During this I mostly Practiced on DSA (Arrays, Linked list, Stack and Queues etc.) problems using C Language.

## PROJECTS

---

### Portfolio | HTML, CSS, JS, BOOTSTRAP / [GitHub](#), [Demo](#)

- In this project I have used html, CSS, JS and bootstrap and made it responsive as well.
- In this project I focused on showcasing my technical knowledge and projects.

### To-Do-List | HTML, CSS, JS / [GitHub](#), [Demo](#)

- In this project I focused on the aesthetic look of the overall website.
- In this project I utilized the local storage of browser to save all the To-Dos in the mobile. So it doesn't vanish.

### E-commerce Website | HTML, CSS, JS, PHP, BOOTSTRAP, SQL-DATABASE

- In this project I have used HTML, CSS, JavaScript, and Bootstrap for responsive and visually appealing front-end design. I Implemented backend functionalities using PHP for user authentication, product management, and order processing.
- This project helped me gain experience and Improve my coding efficiency, debugging skills, and ability to implement scalable web solutions.

### Movies and comics Website | HTML, CSS, JS, BOOTSTRAP, Django

- Designed and developed a website showcasing movies and comics.
- Utilized HTML, CSS, JavaScript, and Bootstrap for a responsive and interactive front-end experience.
- Applied the Django framework to organize the project and streamline front-end development workflows.
- Improved proficiency in front-end development and gained hands-on experience with Django for streamlined web development.
